to the following, who were recently named by Grateful Patients as
CHRISTUS Spohn Healing Heroes

Sam Ortiz, RN ~ Memorial
Justin Huang, RN ~ Memorial
Cary Garrison, RN ~ Memorial
5E Unit ~ Memorial
Housekeeping Staff ~ Memorial
Letty Rodriguez, RN ~ Memorial
Sylvia Salazar, RN ~ Memorial
ICU 1 ~ Memorial
Brian Cornelius, RN ~ Memorial
Erica Albert, RN ~ Memorial
Gloria Benavides, RN ~ Memorial
Lenee Saenz, RN ~ Memorial
Anita Linan ~ Memorial
Barbara Ybanez, RN ~ Memorial
Jonathan Hardin ~ Memorial
Geraldine Hayes ~ Memorial
Kelli Hubert, RN ~ Kleberg

Cardiac Rehab Services Team ~ Shoreline
Cardiac Rehab Services Team ~ Shoreline
CCardiac Rehab Services Team ~ Shoreline
Pavilion 6th Floor Staff ~ Shoreline
8th Floor Unit and Therapy Group ~ Shoreline
Dr. Yvonne Manalo ~ Shoreline
4th Floor Orthopedics Unit Staff ~ South
Women's Surgical Services ~ South

H-E-B Pledges \$500,000

H-E-B has pledged \$500,000 to support the Cancer Center Renewal project. Besides the new da Vinci Robotic Surgical System that arrived recently, plans also include a Cyberknife Stereotactic Radiosurgery System, renovations to the Cancer Center and a Healing Garden. It's true what they say... "everyone loves H-E-B!"

Foundation Board Member, Karen Urban surprises fellow board members by announcing the gift at the 2010 Foundation Board retreat.

AMBASSADORS MEET TRAUMA MAN

The CHRISTUS Spohn Ambassadors are a group of ladies committed to learning more about CHRISTUS Spohn so they can serve as advocates in our community. At their last meeting, they learned more about Memorial's Level II Trauma Center and saw a demonstration of the new Trauma Man system. The Trauma Man system is used to train physicians on trauma procedures and was purchased with funds raised by Foundation Board member, Jen Vogt as part of her "Ranchers Making a Difference" campaign.

Ambassadors look on as Dr. Osbert Blow and Peter Gembol demonstrate the unique features of the Trauma Man system.

DA VINCI AT THE ART MUSEUM (where else!)

To celebrate the arrival of our new da Vinci Robotic Surgical System, the Marketing Department arranged and hosted a reception at the Art Museum of South Texas where a demonstration model of the da Vinci was on display. Guests, including physicians, board members and donors, enjoyed the opportunity to "play" with the da Vinci Robot.

So many donors have given generously to the Cancer Center Renewal to make the da Vinci purchase possible. They made this dream come true and we are so thankful.

Dr. ?? and Dr. Robert Naismith enjoy show and tell with the da Vinci and the other guests.

Cathy Sellers and George Finley watch the robotic arms in action.

**The 2010 LYCEUM
will feature guest speaker MIKE HUCKABEE
Monday, April 5, 2010
